

Job Description: ARCHITECTURAL DESIGNER

The Architectural Team, based in Chelsea, Mass., and nationally known for architectural design excellence and commitment to collaborative client relationships, is seeking an Architect | Designer.

Candidates must have 8+ years of strong conceptual and graphic presentation skills to work directly with firm principals on a variety of projects including urban design, mixed use and master-planning. Relevant experience will include planning, designing, and entitlement processes associated with multifamily residential, historic preservation, hospitality, and student housing program types.

This role will focus on front end design visioning, programming, site and building organization, but also be expected to contribute design advice and oversight throughout subsequent phases of projects. This may take the form in the development of details that support the building concept as well as the selection of materials, working in collaboration with project teams.

Successful candidate will be a creative, self-starter and team player, ready to generate, share, discuss and explore design ideas as well as being receptive to design direction from others. Candidates will be evaluated on the basis of their strong design portfolio, as well as verbal and graphic communication skills, and a verifiable history of teamwork and interpersonal skills. An upbeat, enthusiastic, and positive attitude is essential.

Requirements:

- + Bachelors or Masters Degree in Architecture
- + Registration preferred but not required
- + Solid knowledge of AutoCAD, Revit, and Sketch Up
- + LEED accreditation is preferable
